## Point of Sale (Cash Receipting)

- Handles all payment transactions & eliminates hand writing receipts.
- Easily look up and retrieve any balance from a Banyon application
- Customizable selection list for miscellaneous purchase items
- Multiple pay stations or cashiers
- User defined payment acceptance (checks, cash, credit cards, etc)
- Shows change due
- Print receipt
- Multiple transactions on single receipt
- Each transaction logged by user id
- Set supervisor levels to reactivate, delete, or change posted receipts
- End of day processing to balance out cash drawer
- End of day receipt batch transfer to other Banyon applications.
- Deposit register by batch report
- Summary service sales report
- Transaction register report
- Reports can be printed for current period or transaction date range
- Reports export to Word, Excel, PDF

The screenshot shows a software window titled 'bds - Batch 3'. The main area displays a transaction entry form with the following details:

- Transaction No: 66
- Entry Description: UB 01-0000011-00-5 (Pet License)
- Amount: \$215.00
- Entry Note: WILSON, JAMES
- Transaction Date: 1/30/2015
- Transaction Note: WILSON, JAMES

A 'Receipt' dialog box is open, showing a summary of the transaction:

Sub-total	\$219.00	<input checked="" type="checkbox"/> Regular Receipt
Taxes	\$0.36	<input type="checkbox"/> Custom Receipt
Total Due	\$219.36	<input type="checkbox"/> Allow Validation

Below the summary, there is a table for payment types:

Payment Type	Amount*	Receipt Note
Check	\$219.36	
Check		

At the bottom, there are buttons for 'F7 - Print Receipt(s)', 'F8 - Skip Receipt(s)', 'F5 - Validate Text 1', and 'F6 - Validate Text 2'. A 'Tendered' section shows '\$219.36' and 'No Change' as '\$0.00'.

## Time Saving Modules

- Deposit Slip Printing

## **Receipt barcode scanning for Utility Billing, Invoicing, and Point of Sale**

- Barcode module will print a receipt barcode on all bills your Banyon Software generates.

- Use with Utility Billing, Point of Sale, Fund Accounting (Invoicing), and Property Tax Collection.

- Save time spent on looking up accounts, bills, or invoices being paid.

- Simply scan barcode and entry is made into the receipt batch or transaction window of Point of Sale.

- Fast entry feature in utility billing allows bills being paid in full to be scanned one after another directly into the receipt batch.

*To begin using, call Banyon to purchase and activate the barcode printing module. (Banyon does not sell the actual barcode scanner)*
