Re: Auditing Banyon Data Customers

Does your auditing firm have customers that use Banyon Data Fund Accounting Software?

If so, Banyon Data provides our Fund Accounting Software **_FREE_** to all auditing firms that audit Banyon Data customers. The municipal entity has the ability to export the data via the help ribbon and then clicking "Send Data."

Banyon Data has special programming in the auditing firm's free copy of Fund Accounting to then import customer data through the help ribbon and "Receive Data"

If your firm is interested in receiving a free copy of Banyon Data Fund Accounting, please submit an email to chriso@banyon.com and provide the Banyon customer entity name(s) your firm audits. Additionally, please include a shipping address and contact name for us to send out the software and manual.

If you have any questions, please contact us at 800.229.1130.

Regards,

Chris Olson
Sales Manager
